

Department of Mathematical Sciences Seminar Programmes

Pure Mathematics Applied Mathematics Statistics and OR Internal-Pure Internal-Applied Previous Seminars

Pure Mathematics (Thursdays 3.15pm; Room B74, Laver Building)

Contact:	Robin Chapman	(01392) 263971	rjc@maths.ex.ac.uk
22 Jan 04	Anthony Hayward	King's College, London	Congruences satisfied by Stark units
05 Feb 04	Marc Conrad	University of Luton	Cyclotomic units: relations and computations
12 Feb 04	Elmer Rees	University of Edinburgh	Higher characters, symmetric products and Frobenius algebras
26 Feb 04	Neil Strickland	University of Sheffield	POSTPONED TO NEXT TERM
04 Mar 04	Tim Browning	University of Oxford	Rational points on threefolds
11 Mar 04	Tom Fisher	University of Cambridge	Explicit 3-descent for elliptic curves
18 Mar 04	Tom Leinster	University of Glasgow	A general theory of self-similarity

Applied Mathematics (Mondays 3pm; Room LT321, Laver Building)

Contact:	Prof Andrew Soward	(01392) 263976	A.M.Soward@ex.ac.uk
19 Jan 04	Peter Ashwin (Organiser)		Half-day Workshop on oscillators and dynamics http://www.maths.ex.ac.uk/~PAshwin/workshop_19_01_04.html
