

Group Project: Building a web site to teach basket weaving

Threats, Opportunities and how we deal with these:

- 1. Not all team members know about basket weaving as some are experts in knitting and not of weaving. Opportunity: enhance scope by introducing 'knitting'**
- 2. Not all members of the group are interested in quality and therefore contribution might be on a mixed level.**
- 3. Nobody in the group has experience with the World Wide Web.**
- 4. Video facilities only accessible in December when team members are busy with other stuff (preparation for Christmas)**
- 5. Team member might become ill our drop out.**
- 6. ...**
- 7. ...**
- Etc**
